Data Analysis Summary

Directions: Answer the following questions to help guide your data analysis summary. This is where you rough draft will be, and your final draft will be done on a Google Document that will be shared with Mr. Curtis.

1). What is your statistical Question? Why did you choose to investigate this question?

2). What errors were found in your data? What conclusions and predictions could you make from your data?

3). Why do you think your data is useful for the HTMNC community?
