

Numbers Never Lie! Project Reflection

Directions: Finish each sentence completely on a google document found in your class's Google Classroom page. On your document you should create three paragraphs, and title the paragraphs "**Project Purpose**," "**What I Learned**," and "**Reflection**."

When you are finished, submit your work into Mr. Curtis

PROJECT PURPOSE

For this paragraph you should describe things we had to do to complete this project and why we did them. Consider reflecting on **creating your statistical question, how your data was gathered, creating a dot plot, histogram, and box plot** for your data, **creating your infographic**.

1. The main purpose of this project was to learn about (lots of details!!!)...
2. Here are the steps we took to complete this project (use details):
 - a. First we...
 - b. Next, we...
 - c. Then, we...
 - d. After that, we...
 - e. Finally, we...

WHAT I LEARNED

1. What is a statistical question?
2. What is population and sample size?
3. How do you create a dot plot, histogram, and box plot?
4. How do you find the mean and median of your data?
5. How can you measure variability in your data?
6. What did you learn from your data?

REFLECTION

1. After completing this project, I feel REALLY good about...
2. The most FUN part of this project was _____ because....
3. The most challenging part of the project was _____ because...
4. I think I did well on this project because...
5. A part of this project that I wish was different is...
6. If I could do this project again, I would....
