

Opening the Tomb Project Packet

Team Members:

- 1). Project Manager - _____
- 2). Documentarian - _____
- 3). Designer - _____

You are challenged to design and build a replica of your Ancient Egyptian city. You must **RECREATE** at least **TWO** original structures found in your city, and create at least **ONE** structure of your team's choosing.

Before beginning, Ask questions about the challenge.

Research and brainstorm ideas on what structures to recreate and the history behind them. Complete your research by using a laptop and your team.

Draw a Sketch of what your designed city will look like. Make sure to label the structures and features.

Describe in words how your design reflects the significance of your Ancient City.

List the materials you THINK you will need in order to build your city (wood, metal, cardboard, construction paper, etc.)
